CHAIRPERSON'S BIT

Hi Everyone

I'm pleased to say I've managed to complete a couple of models in the last month, one that was started anew and another that has been parked in the half built pile for over a year.

Behind the scenes there has been lots of work on our preparations for Nationals by Arthur Winterton and Rob Willis our webmeister. At this month's we'll have a short presentation of the on-line changes and a power-point presentation of national model shows from years gone by to give us all a feel of where it's all going.

Also very excitingly we'll have a viewing of highlights of the Fine Scale Modeller DVD that has every article put out in that magazine from its inception.

Last month we brought the decal bank back out of retirement and very kindly Jeff Berryman has decided to fully itemise all the contents into a spreadsheet . This will hopefully bring NZ's second independent bank and it's most exciting one into the 21st century for the benefit of all club members struggling to find those elusive markings for their modelling projects.

If you haven't been to a meeting in the last couple of months we still have a good supply of special Haynes "Spitfire" Mugs waiting for you. Here's to another fun meeting this month and a look at some more inspirational work from you all.

Cheers Peter

FEBRUARY MEETING

Tuesday 19th February - 7.30pm
Leys Institute (upstairs)
20 Saint Marys Road, Ponsonby

COMMITTEE

- Chairman - Peter Harrison • Members
gepete@xtra.co.nz John Watkins

MAN CAVE

STORAGE – GARRAGE AND OTHER

Currently my man cave is split between the garage and a spare room. The garage contains a spray booth, storage space and my retirement project. My retirement project is a 48 scale build-from-scratch HMS Victory. At this stage the hull is framed.

I've worked on a variety of scale models, - figures, armour, planes, ships, artillery and science fiction. So far the only things I haven't modelled

are cars and motorbikes. Based on my existing model stash, I need to live to 104 to build them all. (Without any new additions.)

The spare room has the models I'm currently busy with, more model storage, some of my reference books and another indispensable tool of the trade - a computer with internet access. My current projects include - two Star Wars models, a Samurai figure, three

artillery pieces, a Japanese submarine, HMS Dreadnought and an Albatross D5 1/32 scale.

I'm also using Solid Works to create a 3D computer model of the HMS Warspite using original plans sourced from My man cave aspiration is simple ... more; more (consolidated) modelling space, more models, more light and more time.
